

Renew Ministry is a service of Golden Egg Communications, which has been serving the leadership development, strategic planning and teambuilding needs of many organizations since 2001. Led by Jennifer Yazell, **Renew Ministry** is committed to working with church staffs and lay leaders to strengthen and support church growth and development.

Reach out to **Renew Ministry** if you:

- Think people in your organization could improve relationships
- Believe your group could work better together if you had better tools
- Are interested in a fun day of teambuilding that will help your work better together
- Need to create or refine your ministry vision, mission, plans and goals
- Would like a facilitator to assist you with implementation of church values, church development and growth
- Think a needs assessment would help your church be more focused on what's ahead.
